## WORK EXPERIENCE

**Geopage Consultants | Bangalore**

05/2024 - PRESENT

Junior Frontend Developer

- Tech Stack: React.js, JavaScript, MUI, Tailwind CSS, Bootstrap CSS, Node.js PostgreSQL, Basic DevOps
- Developing and maintaining SaaS platforms (OLES & AMS) for civil project estimations and management.
- Building responsive, reusable UI components with React.js, Redux Toolkit, and modern UI libraries to enhance performance and scalability.
- Collaborating with backend teams to integrate Node.js and PostgreSQL APIs for dynamic, real-time data handling.
- Assisting in server deployment and CI/CD setup on bare-metal infrastructure to ensure application reliability.

**AntStack Serverless Consulting Company | Bangalore**

11/2023 - 01/2024

Frontend Web Developer Intern

- Tech Stack: React.js, JavaScript, TypeScript, Tailwind CSS, Firebase, Supabase, Git
- Built a POC for WhatsApp messaging where form data was sent to preset and user-entered WhatsApp numbers.
- Implemented the feature using React.js, Firebase, and the WhatsApp Messaging API.
- POC Link: [whatsapp-message-poc.vercel.app](https://whatsapp-message-poc.vercel.app)

## PROJECTS

**OLES | Online Estimation System**

- Tech Stack: Vite, React.js, JavaScript, Tailwind CSS, Shadcn UI, Node.js, PostgreSQL
- Developing a SaaS-based platform for a civil firm to automate project cost estimation and analysis, enhancing accuracy and reducing manual effort through an intuitive, responsive interface.

**Pollify**

- Tech Stack: React, JavaScript, Tailwind
- Built a poll management app with user accounts and poll CRUD features. Integrated Firebase for backend and database management.
- [pollify-sable.vercel.app](https://pollify-sable.vercel.app)

**Personal Portfolio**

- Tech Stack: React, JavaScript, Tailwind
- Built a responsive portfolio showcasing my skills and experience with smooth animations and modern UI, deployed on Vercel.
